

The background is a dark, textured image featuring a technical drawing or blueprint. A pen is positioned diagonally across the center, pointing towards the bottom right. Below the pen, a ruler is visible, showing measurements. The overall aesthetic is technical and academic.

ENGR181W: Essay 2

ENGR181W

Spring 2026

Jovana Isevski

The University Writing Program

What's one trend or issue your project connects to?

Essay 2

Part 1: Contemporary engineering issue

- What trend is your project part of?
- Why does it matter?

Part 2: Lifelong learning

- What did you have to learn?
- What would engineers in this field continue learning?

Think: How does my project fit into a larger technological landscape?

e.g. A robotics project could connect to automation, AI-assisted manufacturing, labor changes, or industrial safety.

Essay 2 Structure

Abstract

1. Introduction

- Introduce project
- Introduce trend/issue
- Thesis

2. Body 1

- Explain the contemporary issue/trend

3. Body 2

- Connect the trend to your project

4. Body 3

- Challenges/responsibilities/implications

5. Body 4: Lifelong learning

- what you learned
- what you still need to learn

6. Conclusion

- Summary + why this matters for engineers
